

Central Susquehanna Community
Federal Credit Union

Dear CU family member,

The last few days of news surrounding the banking industry has been overwhelming at best. This obviously raises a few questions for anyone that has accounts of any value at a financial institution, like a local bank or credit union.

Is my money insured? Yes, all members are covered in our credit union up to \$250,000 through NCUA and credit union members have never lost a penny of insured savings at a federally insured financial institution.

CSC FCU was chartered in 1961. That means 62 years of safe and sound business history.

CSC is regularly audited both at a state and national level. Audits and exams are performed by very highly trained professionals that excel in their field.

CSC is backed by fantastic teams in legal, compliance and operational areas that are always available to help answer any questions that the staff and/or members may have.

Please keep in mind that the issues with the recent banking failures are not a representation of the financial industry as a whole, but are the direct result of improper investing and management within each organization itself. CSC and your other local institutions pride themselves on being fair and honest and not taking risks that may jeopardize their members/shareholders.

If you want to know more about the coverage for members and other FAQs, you can visit MyCreditUnion.gov for more information. As always, you may also contact us at 570-275-3308 or info@cscfederal.org.

530 E. Market Street - Danville, Pa 17821
